

Green Team

Working together works wonders.

"All of us at Eisenhower consider our Desert Arc service providers to be indispensable to the Medical Center. We are very proud of Desert Arc's work; our employees and patients benefit immeasurably from our relationship, more than we ever imagined possible."

Aubrey Serfling
President/CEO Eisenhower Medical Center

When people with disabilities contribute in a meaningful way, everyone benefits. Desert Arc's clients are delighted to be working on the Green Team at Eisenhower Medical Center. Helping to recycle everything from cans to cardboard, these clients experience a viable vocational opportunity as they provide a vital service.

Working with our valued business partners like Eisenhower, we offer more than 550 clients at our main Palm Desert campus vital opportunities: to build confidence and self-esteem through work, to socialize and to thrive. Desert Arc is honored to help business partner Eisenhower Medical Center. In turn, the Green Team helps clients with disabilities transcend their limitations as they transform their lives.

Help us continue our mission. Now more than ever, Desert Arc needs your financial support and opportunities for our clients. For information, contact us at **760-346-1611** or **www.desertarc.com**.

Because working together truly does work wonders.
