FROM: Eric Schmidt – Operations Mgr., Vintage Landscape
RE: Desert Arc

This memo is being written to express our satisfaction with Desert Arc.

Earlier this year we were in a position where an additional employee would need to be hired to accommodate our contractual obligations for trash pick up and litter maintenance for The City of La Quinta parks for which we maintain. We were contacted by Lisa Buckhout with Desert Arc at the same time we were deciding whom to hire for this position. Prior to our engaging the enclave provided us for this city work we had no prior experience working with the disabled or with Desert Arc. Myself and our staff along with the City of La Quinta supervisor we are accountable to have been very satisfied with the work they have been asked to perform.

Vintage Landscape has been so pleased with the ease in working with the Desert Arc clients as well as Lisa and Angelique we decided to use their service at Eisenhower Medical Center for a similar scope of work.

If at any time you have questions or concerns regarding Desert Arc or the clients they serve please call me. I may be reached at 760-772-3673.

Sincerely,

A handwritten signature in black ink that reads "Eric C. Schmidt".

Eric Schmidt
